Article 3 of Regulation 1/1958 <sup>(2)</sup> and to have this Decision adopted and notified in English.

## 2. DESCRIPTION OF THE MEASURE

- (3) Greece considers that the Russian aggression against Ukraine and its direct and indirect effects, including the sanctions imposed and the countermeasures taken for example by Russia, have economic repercussions on the entire internal market (“the current crisis”). According to the Greek authorities, the current crisis has created significant economic uncertainties, disrupted trade flows and supply chains and led to exceptionally large and unexpected price increases, especially in natural gas and electricity, but also in numerous other input and raw materials and primary goods, including fertilisers, highly relevant for the agricultural sector.
- (4) The Greek authorities have explained that the current crisis has direct and indirect repercussions on the Greek economy in general and in particular, on the agricultural sector. Thus, the measure aims at addressing the liquidity shortage faced by certain categories of farmers in the sector concerned who are directly affected by the serious disturbance of the economy.
- (5) Greece confirms that the aid under the measure is not conditioned on the relocation of a production activity or of another activity of the beneficiary from another country within the European Economic Area (“EEA”) to the territory of the Member State granting the aid. This is irrespective of the number of job losses actually occurred in the initial establishment of the beneficiary in the EEA.
- (6) The compatibility assessment of the measure is based on Article 107(3), point (b), TFEU, in light of sections 1 and 2.1 of the Temporary Crisis and Transition Framework.

### 2.1. The nature and form of aid

- (7) The measure provides aid on the basis of a scheme in the form of direct grants.

### 2.2. Legal basis

- (8) The legal basis for the measure is the Decision of the Ministers of Finances and Rural Development and Food concerning “Granting of aid to apple and chestnut producers nationwide and implementation details” <sup>(3)</sup>, as amended by the draft of the Joint Ministerial decision of the Minister of National Economy and Economic Affairs and the Minister for Rural Development and Food <sup>(4)</sup>.

- (13) Greece confirms that the aid under the measure is not granted to undertakings under sanctions adopted by the Union, including but not limited to: (i) persons, entities or bodies specifically named in the legal acts imposing those sanctions; (ii) undertakings owned or controlled by persons, entities or bodies targeted by sanctions adopted by the Union; or (iii) undertakings active in industries targeted by sanctions adopted by the Union, insofar as the aid would undermine the objectives of the relevant sanctions.
- (14) Greece confirms that the measure may not in any way be used to undermine the intended effects of sanctions imposed by the Union or its international partners and will be in full compliance with the anti-circumvention rules of the applicable regulations <sup>(7)</sup>. In particular, natural persons or entities subject to the sanctions will not benefit directly or indirectly from the measure.

### **2.6. Sectoral and regional scope of the measure**

- (15) The measure is open to undertakings active in the primary agricultural sector, specifically apples and chestnuts (recital (12)). It applies to the whole territory of Greece. <sup>(13)</sup> Referring to information required in Annex III to Commission Regulation (EU) 2022/2472.

### **3.2. Existence of State aid**

- (29) For a measure to be categorised as aid within the meaning of Article 107(1) TFEU, all the conditions set out in that provision must be fulfilled. First, the measure must be imputable to the State and financed through State resources. Second, it must confer an advantage on its recipients. Third, that advantage must be selective in nature. Fourth, the measure must distort or threaten to distort competition and affect trade between Member States.
- (30) The measure is imputable to the State, since it is administered by the OPEKEPE (recital (9)) and it is based on the legal act mentioned in recital (8). It is financed through State resources since it is financed by public funds (recital (10)).
- (31) The measure confers an advantage on its beneficiaries in the form of direct grants (recital (7)). The measure thus confers an advantage on those beneficiaries which they would not have had under normal market conditions.
- (32) The advantage granted by the measure is selective, since it is awarded only to certain undertakings, i.e., producers of apples and chestnuts, excluding among others the financial sector (recital (15)), while other undertakings in a comparable legal and factual situation within that sector or other sectors (considering that all economic operators should in principle cover their own costs), are not eligible for aid and thus will not receive the same advantage.
- (33) The measure is liable to distort competition, since it strengthens the competitive position of its beneficiaries. It also affects trade between Member States, since those beneficiaries are active in a sector in which intra-Union trade exists.
- (34) Therefore, the Commission concludes that the measure constitutes aid within the meaning of Article 107(1) TFEU. The Greek authorities do not contest that conclusion.

### **3.3. Compatibility**

- (35) Since the measure involves aid within the meaning of Article 107(1) TFEU, it is necessary to consider whether that measure is compatible with the internal market.
- (36) Pursuant to Article 107(3), point (b), TFEU the Commission may declare compatible with the internal market aid “*to remedy a serious disturbance in the economy of a Member State*”.
- (37) By adopting the Temporary Crisis and Transition Framework, the Commission acknowledged (in Section 1) that the current crisis has created significant economic uncertainties, disrupted trade flows and supply chains, and led to exceptionally large and unexpected price increases, especially in natural gas and electricity, but also in numerous other input and raw materials and primary goods, including in the agricultural sector.
- (38) Those effects taken together have caused a serious disturbance of the economy in all Member States, including in the economy of Greece. The Commission concluded that State aid is justified and can be declared compatible with the internal market on the basis of Article 107(3), point (b), TFEU for a limited

period if it serves to remedy the liquidity shortage faced by undertakings that are directly or indirectly affected by the serious disturbance of the economy.

- (39) The measure aims at providing liquidity to certain undertakings active in the primary agricultural production at a time when a wide range of economic sectors are affected, the normal functioning of markets is severely disturbed leading to severe disturbances of the real economy of Member States, including in the economy of Greece.
- (40) The measure is one of a series of measures conceived at national level by the Greek authorities to remedy a serious disturbance in their economy. The importance of the measure to ensure sufficient liquidity of the beneficiaries severely impacted by cost increases of energy, and other production inputs is widely accepted by economic commentators and the measure is of a scale which can be reasonably anticipated to produce effects across the entire Greek economy. Furthermore, the measure has been designed to meet the requirements of a specific category of aid ("*Limited amounts of aid*") described in section 2.1 of the Temporary Crisis and Transition Framework.
- (41) The Commission accordingly considers that the measure is necessary, appropriate and proportionate to remedy a serious disturbance in the economy of a Member State and meets all the relevant conditions of the Temporary Crisis and Transition Framework. In particular:
- the aid takes the form of direct grants (recital (7));
  - the overall nominal value of the grants does not exceed EUR 280 000 per undertaking active in the primary production of agricultural products per Member State; all figures used are gross, that is before any deduction of tax or other charges (recital (18)). If the beneficiary receives aid on several occasions under the measure or aid under other measures approved by the Commission under section 2.1 of the Temporary Crisis and Transition Framework, the overall maximum cap per undertaking, per Member State, as set out in points 61(a) or 62(a) of that framework, will be respected (recital (26)). The measure therefore complies with point 62(a) of the Temporary Crisis and Transition Framework;
  - aid is granted under the measure on the basis of a scheme (recital (7)) with an estimated budget, as indicated in recital (10). The measure therefore complies with point 61(b) of the Temporary Crisis and Transition Framework;
  - aid will be granted under the measure no later than 31 December 2024, as indicated in recital (11). The measure therefore complies with point 61(c) of the Temporary Crisis and Transition Framework;
  - aid will be granted only to undertakings affected by the current crisis (recitals (3), (12) and (16)). The Commission notes that while the economic disturbance affects the economy widely across all Member States, the implementation of certain measures to effectively remedy these effects may require more time specifically in the sector for primary production of agricultural products, characterised by a particular high share of small undertakings. This sector is characterised by annual growth seasons and harvesting cycles, which are relevant sector-specific features to be

considered, including the need to acquire inputs at a time of particularly high prices whilst selling the resulting products at the current depressed prices. Against this background, the Commission considers that those undertakings can be considered undertakings affected by the current crisis for the purpose of point 61(d) of the Temporary Crisis and Transition Framework without the notifying Member State having to provide any further justification, in line with point 7 of the Second Amendment to the Temporary Crisis and Transition Framework. The measure therefore complies with point 61(d) of the Temporary Crisis and Transition Framework. The measure therefore complies with point 61(d) of the Temporary Crisis and Transition Framework;

- aid granted is not fixed on the basis of the price or quantity of products put on the market (recital (19)). The measure therefore complies with point 62(b) of the Temporary Crisis and Transition Framework.
- (42) State aid measures that entail, by themselves, by the conditions attached to them or by their financing method a non-severable violation of Union law cannot be declared compatible with the internal market <sup>(14)</sup>.
- (43) Greece confirms that the proposed measures do not by themselves, or by the conditions attached to them or by their financing method constitute a non-severable violation of Union law (see recital (20)). In addition, the Commission has no indications of any possible breach of Union law that would prevent the notified measure from being declared compatible with the internal market.
- (44) Therefore, the Commission considers that the measure does not infringe any relevant provisions of Union law.
- (45) Greece confirms that, in accordance with point 95 of the Temporary Crisis and Transition Framework, overall aid granted under section 2.1 of the previous Temporary Crisis Framework and the Temporary Crisis and Transition Framework will not exceed the aid ceilings provided in the respective section of the Temporary Crisis and Transition Framework at any point in time (see recital (25)).
- (46) The Greek authorities confirm that, pursuant to point 51 of the Temporary Crisis and Transition Framework, the aid under the measure is not conditioned on the relocation of a production activity or of another activity of the beneficiary from another country within the EEA to the territory of the Member State granting the aid. This is irrespective of the number of job losses actually occurred in the initial establishment of the beneficiary in the EEA (recital (5)).
- (47) The Greek authorities confirm that, pursuant to point 52 of the Temporary Crisis and Transition Framework, the aid under the measure will not be granted to undertakings under sanctions adopted by the Union, including but not limited to: a) persons, entities or bodies specifically named in the legal acts imposing those sanctions; b) undertakings owned or controlled by persons, entities or bodies targeted by sanctions adopted by the Union; or c) undertakings active in industries

targeted by sanctions adopted by the Union, insofar as the aid would undermine the objectives of the relevant sanctions (recitals (13) and (14)).

- (48) The Greek authorities confirm that the monitoring and reporting rules laid down in section 3 of the Temporary Crisis and Transition Framework will be respected (recital (27)). The Greek authorities further confirm that the aid under the measure may only be cumulated with other aid if the specific provisions in the relevant sections of the Temporary Crisis and Transition Framework, and the cumulation rules in the relevant Regulations are respected (recitals (21) to (24)).
- (49) The Commission therefore considers that the measure is necessary, appropriate and proportionate to remedy a serious disturbance in the economy of a Member State pursuant to Article 107(3), point (b), TFEU since it meets all the relevant conditions of the Temporary Crisis and Transition Framework.

#### **4. CONCLUSION**

The Commission has accordingly decided not to raise objections to the aid on the grounds that it is compatible with the internal market pursuant to Article 107(3), point (b), of the Treaty on the Functioning of the European Union.

The decision is based on non-confidential information and is therefore published in full on the Internet site: <https://competition-cases.ec.europa.eu/search?caseInstrument=SA>.

Yours faithfully,

For the Commission
